QKJ-I

INDUSTRIAL HORIZONTAL MEAT SLICER

INDUSTRIAL HORIZONTAL AUTOMATIC MEAT SLICER WITH PORTIONING FUNCTION

MODEL: **QKJ-I**

QKJ-I is positioned as a compact industrial meat slicer suitable for customers who require frozen or chilled meat slicing capability but do not require the larger footprint, conveyor discharge, or portioning configuration of QKJ-II.

It is suitable as a more cost-effective alternative for medium-scale meat processing, central kitchen preparation, and food production applications.

The QKJ-I Industrial Horizontal Meat Slicer is designed for compact industrial slicing applications involving frozen and chilled meat products. With stainless steel construction, adjustable slicing thickness, and a circular blade cutting system, the machine provides reliable slicing performance for medium-scale meat processing operations.

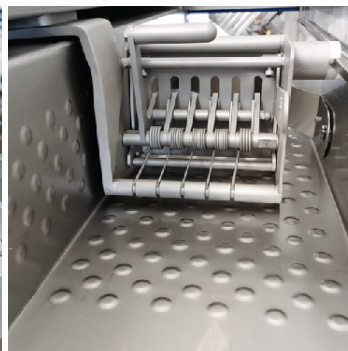

Recommended for processors requiring industrial slicing capability in a smaller footprint compared to larger automatic portioning slicers.

Application Icons:

- | | | |
|--|--|--|
| ☒ Frozen Meat | ☒ Bacon | ☒ Central Kitchen |
| ☒ Chilled Meat | ☒ Processed Meat | ☒ Meat Processing Facility |
| ☒ Ham | ☒ Bone-in Meat | |

FEATURES:

- Compact industrial meat slicer design
- Horizontal slicing structure
- Adjustable slice thickness from 1–32 mm
- Circular blade cutting system
- Suitable for frozen and chilled meat products
- Smaller footprint than QKJ-II
- Stainless steel construction
- Designed for medium-scale industrial food processing
- Lower investment alternative to QKJ-II

QKJ-I

INDUSTRIAL HORIZONTAL MEAT SLICER

TECHNICAL SPECIFICATIONS:

MODEL: QKJ-I

Machine Type	:	Industrial Horizontal Meat Slicer
Operating Type	:	Automatic / Semi-Automatic Industrial Slicing
Machine Dimension	:	1641 x 671 x 1263 mm
Packaging Dimension	:	1800 x 900 x 1500 mm
Machine Construction	:	Stainless Steel
Cutting System	:	Circular Blade
Slices Thickness	:	1 - 32 mm
Maximum Cutting Speed	:	Up to 155 Slices/Min
Applicable Meat Temperature	:	- 5°C to 0°C
Feeding Tunnel	:	170 x 170 x 640 mm
Max. Meat Block Size	:	680 x 170 x 150 mm
Installed Power	:	3 kW
Machine Weight	:	Approx 50 kg (Nett) / Approx 400 kg (With Packaging)
Estimated Packing Volume	:	Approx 2.43 CBM
Packing Method	:	Export Wooden Case
Country of Origin	:	China
HS Code	:	84385000
Portioning Function	:	No
Splitting Function	:	No
Output Conveyor	:	No

PRODUCT ADVANTAGE

- More compact than QKJ-II
- Lower investment requirement
- Suitable for medium-scale industrial slicing
- Handles frozen and chilled meat applications
- Adjustable thickness setting
- Industrial stainless steel construction
- Smaller footprint for limited production space
- Suitable for customers who do not require portioning function

DISCLAIMER

Specifications are subject to change without prior notice as part of continuous product improvement.

Actual production output depends on product dimensions, meat density, slice thickness, operator settings, raw material temperature, and product characteristics.

The QKJ-I is not equipped with portioning function, output conveyor, splitting function, infrared scanning, or intelligent weight-based portioning control.

FOOD SERVICE EQUIPMENT & SUPPLIES

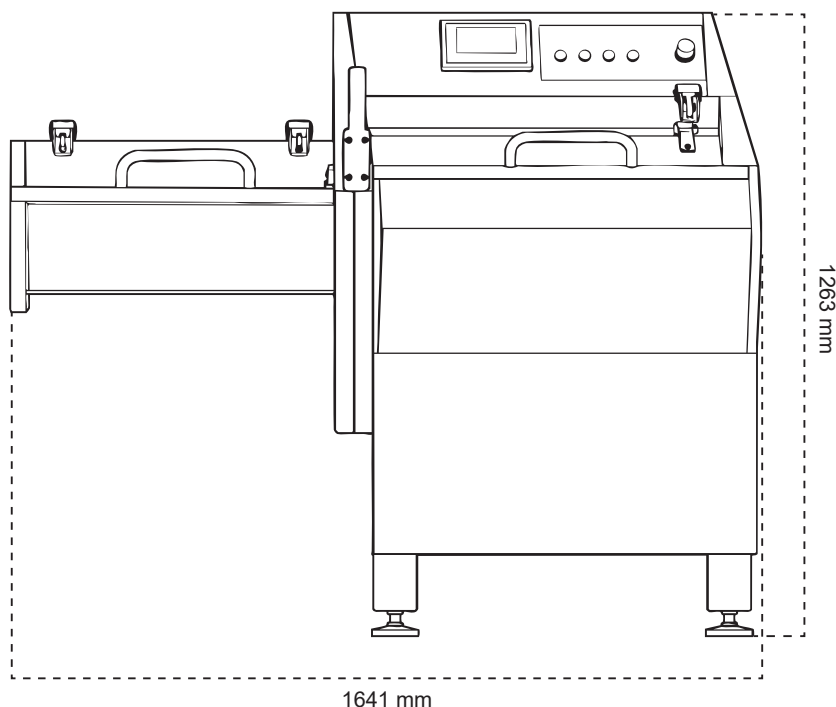

QKJ-I

INDUSTRIAL HORIZONTAL MEAT SLICER

ELECTRICAL & CONTROL COMPONENTS:

COMPONENT	BRAND / ORIGIN
Main Motor	Nord – Germany
Servo Motor & Drive	Panasonic – Japan
PLC	Omron – Japan
Inverter	Delta – Taiwan
Touchscreen HMI	Weintek – Taiwan
Electrical Components	Siemens – Germany

MACHINE CONSTRUCTION:

The QKJ-I is designed as a compact industrial slicing platform for frozen and chilled meat applications.

The system is optimized for:

- stable slicing performance,
- medium-scale food processing,
- adjustable slice thickness,
- and efficient operation in limited production spaces.

The QKJ-I does not include portioning, splitting, output conveyor, infrared scanning, or intelligent weight-based portioning functions.

HYGIENE & SAFETY:

Hygiene Features

- Stainless steel construction
- Open-access cleaning structure
- Accessible feeding chamber
- Washable slicing chamber
- Industrial food-contact design

Safety Features

- Emergency stop system
- Safety interlock protection
- Blade chamber protection cover
- Operator safety guarding

OPERATIONAL NOTES:

The QKJ-I is designed as an industrial slicing platform with programmable slicing capability and quantity-based portion grouping.

The system is optimized for:

- industrial slicing stability,
- medium-to-high throughput production,
- and continuous-duty operation.

The machine is not designed as an advanced intelligent weight-based portioning system with infrared scanning or AI-driven portion optimization.

OPTIONAL CONFIGURATIONS:

Optional configurations may include:

- Stainless steel cover upgrade
- Different feeding chamber arrangements
- Conveyor customization
- Blade configuration options

INDUSTRIAL POSITIONING:

The QKJ-I is positioned as:

Industrial Heavy-Duty Horizontal Meat Slicer with Basic Programmable Portioning Capability

Suitable for industrial processors seeking:

- stable slicing performance,
- industrial-duty operation,
- and cost-optimized automation solutions.
