

DEM-TRUK

The Versatile Equipment Trolley

KE 380/391

**The easy way to transport
equipment safely and quickly**

THE DEM-TRUK TYPE KE 380/391

ideal for demonstration, servicing and distribution purposes. The Dem-Truk originally designed for moving heavy, expensive or awkward to lift photocopiers in and out vehicles and into offices for demonstration purposes.

FEATURES

FOLDING for reduced storage space. The undercarriage folds to only 20 cm wide by 31 cm high and 92 cm long. The standard unit is 26 cm wide when folded.

PALLET HANDLES additional handles can be purchased which can reverse, to allow easy carrying of equipment up stairs.

DOOR GLIDES providing easier passage through doors.

POSITIVE BRAKING on both rear wheels ensure the safety of people and equipment.

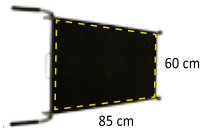

LOAD STRAPS be secured crossways and lengthways to ensure load security.

COLOUR standard product colour is Pantone colour “560 U” Green hammer finish, the product can be produced in bespoke colours to suit client needs.

MAXIMUM PAYLOAD WEIGHT of the trolley 115 Kg.

PALLET RUBBER TOP measuring 85 cm X 60 cm.

HOW IT WORKS

(1)

EASY TO MANOEUVRE

The operator is shown pushing the load to her vehicle. The rubber tyres give her equipment a smooth ride over rough surfaces.

(2)

VARIABLE HEIGHTS

At the highest loading height of all the sport utility vehicles, she effortlessly rolls the platform off the undercarriage into the vehicle.

(3)

EASILY ADJUSTED

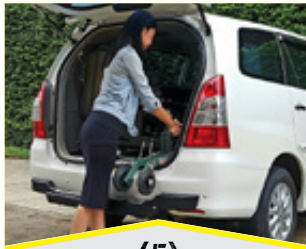

She then lowers the platform supports into a folding position by simply flipping a latch on each side and sliding the supports in a downward position.

(4)

CARTS ARE TIME SAVERS

After folding the side supports downward and pulling the side walls together, she is then ready to place the undercarriage into the vehicle. The four step folding procedure can take less than five seconds to complete.

(5)

EASY TO HANDLE

In the folded position, the lightweight, 13 kilos, compact undercarriage is lifted by its convenient handle and placed next to the loaded platform.

(6)

JUST MAKES SENSE

The compactness of the undercarriage allows extra storage room in your vehicle for other items. The undercarriage folds to only 20 cm wide by 31 cm high and 92 cm long. The standard unit is 26 cm wide when folded.

BENEFITS

- Versatile use across industries.
- Single person operation.
- Adjustable pallet height.
- Compact to store.
- Detachable pallet.
- Easy to operate.
- Minimizes risk of injury to operator.
