The
ultimate
outdoor
kitchen
solution

The OFYR PRO Connect redefines outdoor cooking by seamlessly combining preparation and cooking in a single, modular system.

This innovative design connects individual units with a bridge, creating an expansive and versatile workspace that suits your needs. Whether you're hosting an intimate gathering or catering a large event, the OFYR PRO Connect provides the flexibility and functionality to prepare, cook, and serve with ease.

The extended working surface not only enhances your cooking possibilities but also creates a welcoming space for people to gather, socialize, or even join in the culinary process. Designed with mobility and flexibility in mind, the OFYR PRO Connect offers a choice between sturdy feet for permanent installations or wheels for easy movement. This makes it ideal for both restaurants and catering professionals, allowing you to adapt to temporary event setups or establish a more permanent cooking solution.

Whether stationary or mobile, the OFYR PRO Connect combines practicality with a sleek, sophisticated design that fits seamlessly into any environment. It's the ultimate tool for modern chefs who value style, versatility, and innovation.

01

LINE-UP

Stationary or mobile

Offers two setup options: stationary feet or wheels. This means the OFYR PRO Connect can serve as either a permanent installation or a mobile unit. You can also combine both options - using stationary feet for a stable working space with the Kamado Table while keeping the OFYR Plancha unit mobile.

Seamless expansion

A standout feature of the OFYR PRO Connect is the bridge system, designed to seamlessly connect multiple units. This modular addition allows you to expand your cooking area, creating a larger workspace tailored to your needs.

Durable & refined

The base of the OFYR PRO Connect is made from powder-coated aluminium with a fine structure finish, ensuring longlasting quality and a sophisticated look. The working surface is made of Dekton, a high-quality material known for its heat resistance and easy-to-clean properties.

Colour Combinations

Available in two colour combinations, in Taupe with light Dekton and in Black with dark Dekton.

02

PLANCHA MODULE

The **OFYR PRO Connect** Plancha Module is the ultimate centerpiece for outdoor chefs who value design, performance and longevity in perfect balance. With its generous 100 cm cooking surface and smart airflow system, this unit delivers a seamless cooking experience that lasts for hours.

The innovative air circulation ensures fast ignition, even heat distribution and minimal smoke—ideal for social, stress-free outdoor moments. A thermally insulated cone keeps the base cool and steady, even during extended use.

Crafted from premium aluminium and stainless steel, the Plancha is weather-resistant, easy to maintain and built for life outdoors. The removable ash tray allows for effortless cleaning after every use.

KEY FEATURES

Durable & Lightweight

The Plancha Cooking Unit, made from aluminium and stainless steel, guarantees long-lasting durability while keeping the product much lighter and easier to handle.

Easy Cleaning

The removable ash tray is designed for quick and effortless maintenance, ensuring the unit stays in top condition with minimal effort.

Limited Heat Transfer

The disconnected plancha nest reduces the amount of heat transferred to the base, keeping the structure safer and more comfortable to use.

Full Mobility

Equipped with a handle, knobs, wheels, and legs, the design makes the unit easy to move, adjust, and position wherever needed.

KAMADO MODULE

The **OFYR PRO Connect** Kamado Table featuring The Bastard PRO/BSTRD. PRO Graphite is the ideal choice for outdoor chefs who demand precision, power, and modular design in one refined unit. Built for performance and versatility, it offers a solid base for the ultimate kamado cooking experience.

The frame is constructed from lightweight yet durable aluminium and stainless steel - resilient to weather and built to move. A secure locking system ensures your kamado stays firmly in place, even when repositioning your setup.

The removable Dekton worktop adds a sleek, heat-resistant and scratchproof surface that is easy to clean and designed to withstand the rigours of outdoor use. Whether you choose wheels or fixed legs - both included - you remain fully in control of your ideal setup.

KEY FEATURES

Durable & Lightweight

The Kamado Cooking Unit is constructed using a blend of aluminium and stainless steel, guaranteeing long-lasting quality while making the unit lighter and easier to use.

Enhanced Stability

The improved nest design ensures that the kamado remains steady and secure, both during transportation and while in use.

Fixed Countertop

The fixated countertop prevents any unwanted movement, providing extra safety and reliability during transport and use.

Easy Cleaning

The detachable countertop allows for quick and effortless cleaning, making maintenance simple and efficient.

Full Mobility

Equipped with a bridge, handle, knobs, wheels, and legs, the Connect design makes the unit easy to move, adjust, and position wherever needed.

MISE EN PLACE MODULE

The **OFYR PRO Connect** Mise en Place Module is where thoughtful design meets daily function - perfect for preparation, organisation, and outdoor flow. Whether you're prepping ingredients or plating up, this workstation becomes the quiet hero of your cooking ritual.

A removable Dekton surface offers a durable, heat- and scratch-resistant workspace that's easy to clean. Beneath, integrated storage keeps tools, herbs, and accessories within reach, so you can work efficiently and stay in the moment.

Made from premium aluminium and stainless steel, this unit is weatherproof, lightweight and built for outdoor living. It comes with both wheels and fixed legs included, so you can adapt the setup to your preference and layout.

KEY FEATURES

Durable & Lightweight

The Mise en Place Unit combines aluminium and stainless steel in its construction, providing excellent durability while remaining significantly lighter to handle.

Practical Storage

The unit offers convenient temporary storage space, making it easy to keep essential tools and ingredients within reach.

Fixed Countertop

The fixated countertop prevents any unwanted movement, providing extra stability and reliability during transport and use.

Easy Cleaning

The detachable countertop allows for quick and effortless cleaning, making maintenance simple and efficient.

Full Mobility

Equipped with a bridge, handle, knobs, wheels, and legs, the design makes the unit easy to move, adjust, and position wherever needed.

BRIDGE MODULE

The **OFYR PRO Connect** Bridge Module is the elegant link that ties your cooking units together. It transforms standalone modules into a unified workspace with visual flow and added functionality.

Its premium Dekton top provides a durable, heat-resistant surface that's ideal for preparation or serving. Easy to clean and highly refined, the Bridge enhances not just your layout, but also your workflow.

Crafted from lightweight aluminium, this module is easy to move and designed for longevity. It is purpose-built to connect other PRO Connect elements - such as the Mise en Place or Kamado Table - into a seamless configuration.

KEY FEATURES

Durable & Lightweight

The Bridge Unit, made from aluminium, guarantees long-lasting durability while keeping the product much lighter and easier to handle.

Extended Workspace

The unit expands the available working space and creates more opportunities to socialize and connect while cooking.

Fixed Countertop

The fixated countertop prevents any unwanted movement, providing extra stability and reliability during transport and use.

Easy Cleaning

The detachable countertop allows for quick and effortless cleaning, making maintenance simple and efficient.

Seamless Connection

The Bridge Module easily connects with the Kamado Cooking Unit and the Mise en Place Unit using the included flange screws.
