

SE Series

 **Saeco**

TAILOR MADE

SE knows your needs. It is designed for a world that is rapidly changing.

When you feel the need for a break, you can enjoy your favorite beverage wherever you are.

A very professional machine

SE is a professional machine designed for intensive use, capable of always guaranteeing perfect dispensing.

It satisfies the customer because it has a wide range of beverages, from Italian espresso to American coffee, from cappuccino to latte, which can be selected easily and quickly from the touch screen.

SE knows how to please the operator, being able to choose the size of the water container and the desired power based on the location.

Original: innovative design and Saeco technology to achieve a very high level of performance.

Unconventional

Every detail has been studied to respond to a specific purpose: to stand out.

The design and materials used make SE a truly unique proposal, suitable for any context, from the office to the breakfast room of a hotel, from the small restaurant to the minimarket.

The large display with a user-friendly interface allows you to select a wide range of coffee and fresh milk based beverages.

The dispensing area is enhanced by the blue and white LED lighting that accompanies the preparation of the drinks, creating a modern, elegant and sophisticated effect.
